Fans of kefir, the yogurt-like dairy product that allegedly fights fatigue, enhances the immune system, promotes gastrointestinal health and might even cure a hangover, should be in heaven at this Lincoln Park spot, the second Chicago Starfruit location from the folks behind Morton Grove-based Lifeway Foods. The lineup includes kefir parfaits, kefir-based smoothies, frozen soft-serve kefir sundaes. Choose from an array of toppings and mix-ins such as cereal, crushed Oreo cookies, blueberries and strawberries. During the colder months, look for an expanded menu that includes sandwiches and hot oatmeal and cheese crepes (made with Lifeway cheese, natch) with your choice of toppings from the mix-in bar.
